RISK/RETURN SUMMARY

INVESTMENT OBJECTIVE

The Meehan Focus Fund (the “Fund”) seeks long-term growth of capital.

FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees

(fees paid directly from your investment)

Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Contingent Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None
Redemption Fee (as a percentage of amount redeemed on shares held fewer than seven calendar days)	2.00%

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.80%
Distribution and/or Service (12b-1) Fees	None
Other Expenses ⁽¹⁾	0.35%
Acquired Fund Fees and Expenses	0.02%
Total Annual Fund Operating Expenses ⁽²⁾	1.17%
Fee Reductions and/or Expense Reimbursements ⁽³⁾	(0.15)%
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements ⁽²⁾	1.02%

⁽¹⁾ “Other Expenses” and “Acquired Fund Fees and Expenses” are based on estimated amounts as of the fiscal year ended October 31, 2016.

⁽²⁾ “Total Annual Fund Operating Expenses” and “Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements” will not correlate to the ratio of expenses to the average net assets in the Fund’s Financial Highlights, which reflect the operating expenses of the Fund and do not include “Acquired Fund Fees and Expenses.”

⁽³⁾ Edgemoor Investment Advisors, Inc. (the “Adviser”) has contractually agreed, until March 1, 2019, to reduce Management Fees and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses (exclusive of brokerage transaction costs and commissions; taxes; interest; costs related to any securities lending program; transaction charges and interest on borrowed money; Acquired Fund fees and expenses; distribution and/or shareholder servicing fees, including without limitation, any amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the Investment Company Act of 1940, as amended (the “1940 Act”); extraordinary expenses such as litigation and merger or reorganization costs; proxy solicitation and

liquidation costs; indemnification payments to Fund service providers, including, without limitation, the Adviser; other expenses not incurred in the ordinary course of the Fund’s business, and any other expenses the exclusion of which may from time to time be deemed appropriate as an excludable expense and specifically approved by the Board of Trustees (the “Board”) of the Trust) to an amount not exceeding 1.00% of the Fund’s average daily net assets. Management Fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund for a period of three years after such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses to exceed (i) the expense limitation then in effect, if any and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. Prior to March 1, 2019, this agreement may not be modified or terminated without the approval of the Fund’s Board. This agreement will terminate automatically if the Fund’s investment advisory agreement with the Adviser is terminated.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and the operating expenses of the Fund remain the same and the contractual agreement to limit expenses remains in effect only until March 1, 2019. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$102	\$336	\$607	\$1,380

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the fiscal year ended October 31, 2016, the Meehan Focus Fund’s, a series of Meehan Mutual Funds, Inc. (the “Predecessor Fund”), portfolio turnover rate was 44% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, the Fund invests in the common stocks of companies that exhibit the potential for significant growth over at least a three year period. The Fund normally invests in a focused portfolio of securities of no more than 45 issuers, including U.S. common stocks or securities convertible into common stock. To identify companies that have significant growth potential, the Fund’s Adviser employs a value-oriented approach to stock selection without restriction to a company’s market capitalization. The Adviser seeks to identify companies that exhibit some or all of the following criteria: low price-to-earnings ratio; low price-to-book value or tangible asset value; excellent prospects for growth; strong franchise; highly qualified management; consistent free cash flow; and high returns on invested capital.

The Fund may invest in foreign securities or investment vehicles that provide exposure to foreign securities, such as exchange-traded funds (“ETFs”) and issuer-sponsored American Depository

Receipts (“ADRs”). The Fund will normally invest its remaining assets in cash and cash equivalents, including U.S. government debt instruments, money market funds, and repurchase agreements. The Fund generally will sell a security if its price has exceeded the Adviser’s estimate of its intrinsic value or when the Adviser believes more attractive investment opportunities exist.

The Fund is non-diversified.

PRINCIPAL RISKS

As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund’s investment strategy depends largely upon the Adviser’s skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective. Because of the investment techniques the Adviser uses, the Fund is designed for investors who are investing for the long term. The Fund is not intended to be complete investment program. The principal risks of an investment in the Fund are described below.

Active Management Risk. Due to the active management of the Fund by the Adviser, the Fund could underperform its benchmark index or other funds with similar investment objectives and strategies.

Credit Risk. The Fund could lose money if the issuer of a fixed-income security, including securities convertible into common stock, is unable to meet its financial obligations or goes bankrupt. Credit risk typically applies to fixed-income securities, but generally is not a factor for U.S. government obligations.

Convertible Securities Risk. Convertible securities are subject to the risks of both debt securities and equity securities. The value of convertible securities tends to decline as interest rates rise and, due to the conversion feature, to vary with fluctuations in the market value of the underlying equity security.

Equity Securities Risk. Equity prices are volatile and the value of such securities in the Fund’s portfolio may decline due to fluctuations in market prices, interest rates, national and international economic conditions, or other market events. In a declining stock market, stock prices for all companies (including those in the Fund’s portfolio) may decline, regardless of their long-term prospects. Under such circumstances, price of the Fund’s shares will also decline.

Focused Portfolio and Non-Diversification Risk. The Fund is non-diversified, which means it invests a high percentage of its assets in a limited number of securities. The Fund generally will hold a core portfolio of securities of fewer companies than a more diversified fund, and a change in the value of a single company may have a greater impact on the Fund’s net asset value (“NAV”) than such a change would have on a more diversified fund. A non-diversified fund’s NAV per share and total returns may be more volatile or fall more in times of weaker markets than a conventional diversified fund.

Foreign Securities Risk. The Fund's investments in foreign securities are subject to the risks of currency exchange rate fluctuations, political unrest, economic instability, less stringent regulation, capital controls and changes in foreign laws. ADRs are subject to risks similar to those associated with direct investments in foreign securities. ADRs are securities that evidence ownership interests in a security or a pool of securities issued by a foreign issuer.

Growth Investing Risk. Investments in growth stocks present the risks that the stocks' valuation growth will not be realized, the stocks react differently than the market as whole or other types of stock, and the stocks are more sensitive to changes in their companies' earnings and more volatile than other types of stock. In addition, the Fund's growth investment style may go out of favor with investors during certain parts of the market cycle, which may negatively affect the Fund's performance.

Interest Rate Risk. Interest rate risk is the risk that the value of the Fund's investments in fixed income securities, including securities convertible into common stock, will fall when interest rates rise. As of the date of this Prospectus, interest rates continue to be near historic lows, which may increase the Fund's exposure to interest rate risk. The effect of increasing interest rates is more pronounced for any intermediate-term or longer-term fixed income obligations owned by the Fund.

Large-Capitalization Company Risk. Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. There may be times when the returns from large-capitalization companies generally trail returns of smaller companies or the overall stock market.

Preferred Stock Risk. Preferred stock is subject to interest rate risk, and may have mandatory sinking fund or call provisions, which can have a negative impact on the stock's price when interest rates decline.

Risks of Investing in ETFs and Money Market Funds. The Fund may invest in shares of other registered investment companies, including ETFs and money market funds. Most ETFs are registered investment companies whose shares are purchased and sold on a securities exchange. Generally, an ETF represents a portfolio of securities designed to track a particular market segment or index. A fund that invests in shares of other registered investment companies will indirectly bear fees and expenses charged by those underlying funds, in addition to the Fund's direct fees and expenses. The Fund is also subject to the risks associated with investments in and held by those underlying funds.

Small to Mid-Capitalization Stock Risk. Small and mid-capitalization companies may have narrower commercial markets, less liquidity, more volatile share prices and less financial resources than large-capitalization companies.

Stock Market Risk. The broad stock market or particular holdings of the Fund may decline in value, resulting in a loss to the Fund. Adverse market events may lead to increased redemptions, which could cause the Fund to experience a loss or difficulty in selling investments to meet redemptions.

Value Investing Risk. Value investing attempts to identify companies selling at a discount to their intrinsic value. Value investing is subject to the risk that a company's intrinsic value may never be fully realized by the market or that a company judged by the Adviser to be undervalued may not be undervalued.

PERFORMANCE SUMMARY

It is expected that the Fund will be the successor to the Predecessor Fund through a reorganization with the Fund on or about June 30, 2017, subject to the approval of the Predecessor Fund's shareholders.

The bar chart and table shown below provide some indication of the risks of investing in the Fund by showing changes in the Predecessor Fund's performance from year to year and by showing how the Predecessor Fund's average annual total returns for one year, five years, ten years, and since inception compare with those of a broad-based securities market index, the Standard & Poor's 500 Total Return Stock Index. A second broad-based securities market index, the Nasdaq Composite Index, is also used to provide an additional comparison. How the Predecessor Fund has performed in the past (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information, current to the most recent month end, is available by calling 1-866-884-5968 or by visiting the Fund's website at www.meehanmutualfunds.com.

Calendar Year Returns

The Predecessor Fund's year-to-date return through December 31, 2016 was 5.66%.

Quarterly Returns During This Time Period

Highest 17.19% (quarter ended April 30, 2009)

Lowest -22.80% (quarter ended October 31, 2008)

Average Annual Total Returns for Periods Ended December 31, 2016	One Year	Five Years	Ten Years	Since Inception*
Return Before Taxes	5.66%	9.58%	4.95%	5.12%
Return After Taxes on Distributions	4.85%	8.77%	4.38%	4.75%
Return After Taxes on Distributions and Sale of Fund Shares	3.80%	7.58%	3.94%	4.20%
Standard & Poor's 500 Total Return Stock Index (reflects no deduction for fees, expenses or taxes)	11.96%	14.66%	6.95%	4.76%
Nasdaq Composite Index (reflects no deduction for fees, expenses or taxes)	8.87%	17.07%	9.51%	2.61%

*December 10, 1999 was the inception date of the Predecessor Fund.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their shares through tax-deferred arrangements, such as a 401(k) plan or an individual retirement account ("IRA"). Return After Taxes on Distributions and Sale of Fund Shares may be higher than other returns for the same period due to a tax benefit of realizing a capital loss on the sale of Fund shares.

MANAGEMENT OF THE FUND

Edgemoor Investment Advisors, Inc. is the Fund's investment adviser.

Portfolio Manager	Investment Experience with the Fund	Primary Title with Adviser
Thomas P. Meehan	Since inception of the Predecessor Fund in 1999	President and Lead Portfolio Manager
Paul P. Meehan	Since 2005 with the Predecessor Fund	Managing Director and Chief Compliance Officer
R. Jordan Smyth, Jr.	Since 2005 with the Predecessor Fund	Managing Director

PURCHASE AND SALE OF FUND SHARES

Minimum Initial Investment

The minimum initial investment amount for all regular accounts is \$5,000.

The minimum initial investment for IRA accounts is \$2,000.

Minimum Additional Investment

Once an account is open, additional purchases of Fund shares may be made at any time with a minimum of \$100 for all accounts.

General Information

You generally may purchase or redeem (sell) shares of the Fund on each day that the New York Stock Exchange (“NYSE”) is scheduled to be open for business. Transactions may be initiated by written request, by telephone or through your financial intermediary. Written requests to the Fund should be sent to the Meehan Focus Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, Ohio 45246-0707. For more information about purchasing and redeeming shares, please see “How to Buy Shares” and “How to Redeem Shares” in this Prospectus or call 1-866-884-5968 for assistance.

TAX INFORMATION

The Fund’s distributions are generally taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or any other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Certain of these payments are sometimes referred to as “revenue sharing”. Ask your salesperson or visit your financial intermediary’s website for more information.

ADDITIONAL INFORMATION REGARDING THE FUND'S INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund's investment objective is to seek long-term growth of capital. The Board has reserved the right to change the investment objective of the Fund without shareholder approval upon a least 60 days' prior written notice to shareholders.

Investment Strategies

The Adviser normally attempts to achieve the Fund's investment objective by:

- investing in common stocks without restrictions regarding market capitalization;
- normally investing the majority of the Fund's total assets in U.S. common stocks or securities convertible into common stock; and
- holding a focused portfolio of securities of no more than 45 issuers.

The Adviser believes that the Fund's investment objective is best achieved by investing in companies that exhibit the potential for significant growth over the long term. The Adviser defines long term as a time horizon of at least three years. To identify companies that have significant growth potential, the Adviser employs a value-oriented approach to stock selection. To choose the securities in which the Fund will invest, the Adviser seeks to identify companies that exhibit some or all of the following criteria:

- low price-to-earnings ratio ("P/E");
- low price-to-book value or tangible asset value;
- excellent prospects for growth;
- strong franchise;
- highly qualified management;
- consistent free cash flow; and
- high returns on invested capital.

The Adviser seeks to purchase shares of what it believes to be good businesses at reasonable prices that provide a margin of safety, which is a discount to the Adviser's estimate of the intrinsic value of the shares. Investments in securities convertible into common stock may include corporate bonds, notes and preferred stock.

The Fund may invest in foreign securities. The Fund may invest in foreign securities both directly and indirectly through other investment vehicles, including ADRs and ETFs. The Fund will normally invest in ADRs that are issuer sponsored. Sponsored ADRs typically are issued by a U.S. bank or trust company and evidence ownership of underlying securities issued by a foreign corporation.

The Fund will normally invest its remaining assets in cash and cash equivalents, such as U.S. government debt instruments, other money market mutual funds, and repurchase agreements. In addition, the Fund generally will sell a security if its price has exceeded the Adviser's estimate of its intrinsic value or when the Adviser believes more attractive investment opportunities exist.

The Fund is non-diversified.

Additional Information Regarding the Risks of Investing in the Fund

As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund's investment strategy depends largely upon the Adviser's skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective. Because of the investment techniques the Adviser uses, the Fund is designed for investors who are investing for the long term. The Fund is not intended to be complete investment program. The principal risks of an investment in the Fund are described below

General Risks. All investments are subject to inherent risks, and the Fund is no exception. Accordingly, you may lose money by investing in the Fund. Turbulence in financial markets and reduced liquidity in equity, credit, and fixed income markets may negatively affect many issuers worldwide, which could have an adverse impact on the Fund. When you sell your Fund shares, they may be worth more or less than what you paid for them because the value of the Fund's investments will vary from day-to-day, reflecting changes in market conditions, interest rates and numerous other factors.

Active Management Risk. The Fund is subject to management risk because it is an actively managed investment portfolio. The Adviser will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these decisions will produce the desired results. Due to the active management of the Fund by the Adviser, the Fund could underperform its benchmark index or other funds with similar investment objectives and strategies. The Adviser's method of security selection may not be successful. In addition, the Adviser may select investments that fail to perform as anticipated.

ADR Risk. ADRs are subject to risks similar to those associated with direct investments in foreign securities. ADRs are securities that evidence ownership interests in a security or a pool of securities issued by a foreign issuer. The risks of depositary receipts include many risks associated with investing directly in foreign securities, such as individual country risk, currency exchange risk, volatility risk, and liquidity risk. ADRs may be available through "sponsored" or "unsponsored" facilities. A sponsored facility is established jointly by the issuer of the underlying foreign security and a depository bank. Unsponsored ADRs, which are issued by a depository bank without the participation or consent of the issuer, involve additional risks because U.S. reporting requirements do not apply and the issuing bank will recover shareholder distribution costs from movement of share prices and payment of dividends. The Fund will normally limit its investment in ADRs to sponsored ADRs.

Convertible Securities Risk. Convertible securities are securities that are convertible into common stock and include convertible bonds, convertible preferred stocks, and warrants. Convertible securities are subject to the risks of both debt securities and equity securities. While providing a fixed income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar nonconvertible security), a convertible security also provides the investor the opportunity, through its conversion feature, to participate in the capital appreciation of the underlying common stock. The value of convertible securities tends to decline as interest rates rise and, due to the conversion feature, to vary with fluctuations in the market value of the underlying equity security.

Credit Risk. The Fund could lose money if the issuer of a fixed-income security, including securities convertible into common stock, is unable to meet its financial obligations or goes bankrupt. Credit risk typically applies to fixed-income securities, but generally is not a factor for U.S. government obligations.

Equity Securities Risk. The Fund may invest in equity securities, both directly and indirectly. The equity portion of the Fund's portfolio will generally be comprised of U.S. common stock. In addition to U.S. common stock, the Fund's equity investments may include preferred stock, convertible securities and foreign securities. The Fund's equity investments may include securities traded on domestic exchanges, foreign exchanges or on the over-the-counter market. **Over-the-counter transactions in stocks involves increased risks of possibly limited reliable information about the issuer and the stocks may be very thinly traded, with large bid-ask spreads.** The prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all equity securities, which could also result in losses for the Fund. Market declines may continue for an indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of equity securities will likely decline.

Focused Portfolio and Non-Diversification Risk. The Fund is classified as "non-diversified" under the federal securities laws. This means that the Fund generally will invest a relatively high percentage of its assets in the securities of a small number of companies. Investing in this manner makes the Fund more susceptible to a single economic, political or regulatory event than a more diversified fund might be. Also, a change in the value of a single company will have a more pronounced effect on the Fund than such a change would have on a diversified fund.

Foreign Securities Risk. Investments in foreign securities involve greater risks compared to domestic investments for the following reasons:

- Foreign companies are not subject to the same regulatory requirements of U.S. companies, so there may be less publicly available information about foreign issuers than U.S. companies.
- Foreign companies may not be subject to uniform accounting, auditing and financial reporting standards.

- Dividends and interest on foreign securities may be subject to foreign withholding taxes. Such taxes may reduce the net return to Fund shareholders.
- Foreign securities are often denominated in a currency other than the U.S. dollar. Accordingly, the Fund will be subject to the risks associated with fluctuations in currency values. For example, fluctuations in the exchange rates between the U.S. dollar and foreign currencies may have a negative impact on investments denominated in foreign currencies by eroding or reversing gains or widening losses from those investments.
- Although the Fund will only invest in foreign issuers that are domiciled in nations considered to have stable and friendly governments, there is the possibility of expropriation, confiscatory taxation, capital restrictions or political or social instability which could negatively affect the Fund.

Growth Investing Risk. Growth stocks generally represent companies that have demonstrated better-than-average gains in earnings in recent years and are expected to continue delivering high levels of profit growth. While earnings of some growth companies may be depressed during periods of slower economic growth, growth companies may potentially continue to achieve high earnings growth regardless of economic conditions. Investment in growth stocks presents the risk that the stocks' valuation growth will not be realized. Growth stocks can react differently to issuer, political, market, and economic conditions than the market or other types of stocks. Growth stocks tend to be valued based upon, and more dependent on, their earnings and assets as compared to other types of stocks. As a result, growth stocks tend to be sensitive to changes in their earnings and more volatile than other types of stocks. In addition, the Fund's growth investment style may go out of favor with investors during certain parts of the market cycle, which may negatively affect the Fund's performance.

Interest Rate Risk. Investments in investment-grade and non-investment grade fixed-income securities, including securities convertible into common stock, are subject to interest rate risk. When interest rates go up, the market values of these previously issued instruments generally decline. Debt securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than debt securities with shorter durations. Yields of debt securities will fluctuate over time. As of the date of this Prospectus interest rates in the United States are near historic lows, which may increase the Fund's exposure to risks associated with rising interest rates.

Large-Capitalization Company Risk. Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. There may be times when the returns from large-capitalization companies generally trail returns of smaller companies or the overall stock market.

Management Risk. The Fund is actively managed and its performance therefore will reflect the Adviser's ability to make investment decisions which are suited to achieving the Fund's investment objectives. Due to its active management, the Fund may underperform other mutual funds with similar objectives.

Preferred Stock Risk. Preferred stock represents an equity or ownership interest in an issuer that pays dividends at a specified rate and that has precedence over common stock in the payment of dividends. But like common equity holders, preferred stockholders have an unsecured claim in the event an issuer is liquidated or declares bankruptcy. Further, preferred stock is subject to interest rate risk. If interest rates rise, the fixed dividend on preferred stocks may be less attractive, causing the price of preferred stocks to decline. Preferred stock may have mandatory sinking fund provisions, as well as provisions allowing the stock to be called or redeemed prior to its maturity, which can have a negative impact on the stock's price when interest rates decline.

Risks of Investing in ETFs and Money Market Funds. The Fund may invest in shares of other registered investment companies, including ETFs and money market funds.

- Most ETFs are registered investment companies whose shares are purchased and sold on a securities exchange. Generally, an ETF represents a portfolio of securities designed to track a particular market segment or index. An investment in an ETF generally presents the following risks: (i) the same primary risks as an investment in a conventional fund (i.e., one that is not exchange-traded) that has the same investment objectives, strategies and policies; (ii) the risk that an ETF may fail to accurately track the market segment or index that underlies its investment objective; (iii) price fluctuation, resulting in a loss to the Fund; (iv) the risk that an ETF may trade at a discount or premium to its NAV; (v) the risk that an active market for an ETF's shares may not develop or be maintained; and (vi) the risk that an ETF becomes subject to a trading halt or no longer meets the listing requirements of any applicable exchanges on which that ETF is listed. In addition, as with traditional mutual funds, ETFs charge asset-based fees. The Fund will indirectly pay a proportional share of the asset-based fees of the ETFs in which the Fund invests. Investments in ETFs are also subject to the risks associated with underlying securities in which the ETFs' invest.
- Money market funds are generally registered investment companies that invest in U.S. government obligations or corporate debt obligations that mature in thirteen months or less from the date of acquisition. Like investing in ETFs, if the Fund invests in money market funds it will indirectly bear fees and expenses charged by those funds.

Small to Mid-Cap Stock Risk. The Fund may invest in companies with small to medium market capitalizations (generally less than \$6 billion). Because these companies are relatively small compared to large-cap companies, they may engage in business mostly within their own geographic region, be less well-known to the investment community, and/or have more volatile share prices. Also, small companies often have less liquidity, less management depth, narrower market penetrations, less diverse product lines, and fewer resources than larger companies. As a result, their stock prices often react more strongly to changes in the marketplace.

Stock Market Risk. The stock market tends to trade in cyclical price patterns, with prices generally rising or falling over sustained periods of time. The Fund invests primarily in common stocks, so the Fund will be subject to the risks associated with common stocks, including price volatility and the creditworthiness of the issuing company. Adverse market events may lead to increased redemptions, which could cause the Fund to experience a loss or difficulty in selling investments to meet redemptions.

Value Investing Risk. Value investing attempts to identify companies selling at a discount to their intrinsic value. Value investing is subject to the risk that a company's intrinsic value may never be fully realized by the market or that a company judged by the Adviser to be undervalued may not be undervalued. Different investment styles may shift in and out of favor depending on market conditions and investor sentiment. The Fund's value investments could cause it to underperform funds that use a growth or non-value approach to investing or have a broader investment style.

In addition to the strategies and risks described above, the Fund may invest in other types of securities whose risks are described below or in the Fund's Statement of Additional Information ("SAI").

Temporary Defensive Positions. Ordinarily, the Fund's portfolio will be invested primarily in common stocks. However, the Fund is not required to be fully invested in common stocks and, in fact, usually maintains certain cash reserves. During abnormal or unusual market conditions, cash reserves may be a significant percentage of the Fund's total net assets. The Fund usually invests its cash reserves in U.S. Government debt instruments, other unaffiliated mutual funds (including money market funds) and repurchase agreements. During times when the Fund holds a significant portion of its net assets in cash, the Fund may not achieve it will not be investing according to its investment objectives, and the Fund's performance may be negatively affected as a result.

CFTC Regulation Notice. To the extent the Fund makes investments regulated by the Commodity Futures Trading Commission (the "CFTC"), the Fund intends to do so in accordance with Rule 4.5 under the Commodity Exchange Act ("CEA"). The Trust, on behalf of the Fund, has filed a notice of eligibility for exclusion from the definition of the term "commodity pool operator" in accordance with Rule 4.5 and therefore, the Fund is not subject to registration or regulation as a commodity pool operator under the CEA. If the Fund is unable to comply with the requirements of Rule 4.5, the Fund may be required to modify its investment strategies or be subject to CFTC registration requirements, either of which may have an adverse effect on the Fund.

Additional Information. Whether the Fund is an appropriate investment for an investor will depend largely upon the investor's financial resources and individual investment goals and objectives. The Fund may not be appropriate for investors who engage in short-term trading and/or other speculative strategies and styles.

Portfolio Holdings and Disclosure Policy. A description of the Fund's policies and procedures with respect to the disclosure of its portfolio holdings is available in the Fund's SAI.

FUND MANAGEMENT

The Investment Adviser

Edgemoor Investment Advisors, Inc., located at 7250 Woodmont Avenue, Suite 315, Bethesda, MD 20814, serves as the investment adviser to the Fund. The Adviser provides the Fund with a continuous program of investing the Fund's assets and determining the composition of the Fund's portfolio. The Adviser is a Maryland corporation and has registered with the Securities and Exchange Commission as an investment adviser. The Adviser commenced operations in October

1999. In addition to managing the Fund, it provides financial management and advisory services to individuals, corporations, and other institutions. The Adviser has been the investment adviser to the Fund, including the Predecessor Fund, since the Predecessor Fund's commencement of operations on December 10, 1999.

For its services, the Fund pays the Adviser a monthly investment advisory fee (the Management Fee") computed at the annual rate of 0.80% of the Fund's average daily net assets.

The Adviser has contractually agreed under an Expense Limitation Agreement, until March 1, 2019, to reduce Management Fees and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses (exclusive of brokerage transaction costs and commissions; taxes; interest; costs related to any securities lending program; transaction charges and interest on borrowed money; Acquired Fund fees and expenses; distribution and/or shareholder servicing fees, including without limitation any amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the 1940 Act; extraordinary expenses such as litigation and merger or reorganization costs; proxy solicitation and liquidation costs; indemnification payments to Fund service providers, including, without limitation, the Adviser; other expenses not incurred in the ordinary course of the Fund's business, and any other expenses the exclusion of which may from time to time be deemed appropriate as an excludable expense and specifically approved by the Board) to an amount not exceeding 1.00% of the Fund's average daily net assets. Management Fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund for a period of three years after such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses to exceed (i) the expense limitation then in effect, if any and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. It is expected that the Expense Limitation Agreement will continue from year-to-year provided such continuance is approved by the Board. The Expense Limitation Agreement may be terminated by the Adviser and the Board at the end of the current term upon not less than 90 days' notice to the other party as set forth in the Expense Limitation Agreement. The Expense Limitation Agreement will terminate automatically if the Fund's investment advisory agreement with the Adviser is terminated. The Predecessor Fund did not have an Expense Limitation Agreement; the Adviser was paid its entire management fee for the fiscal year ended October 31, 2016.

A discussion of the factors considered by the Board in its approval of the Fund's investment advisory contract with the Adviser, including the Board's conclusions with respect thereto, will be available in the Fund's Semi-Annual Report for the period ending April 30, 2017.

Portfolio Managers

The following individuals have primary responsibility for day-to-day management of the Fund's portfolios:

Mr. Thomas P. Meehan is President of the Adviser and has served in that capacity since September 1999. He has been portfolio manager for the Fund since its inception. In 1968, Mr. Thomas Meehan was a founding partner of Sherman, Meehan, Curtin & Ain, a Washington, D.C. law firm. Mr. Thomas Meehan served as President of that law firm for many years, and served on the firm's Executive Committee from its inception through September 1999. He was a charter trustee of the

firm's pension and profit sharing plans and served as an investment manager of these plans since their inception in 1973 through 2000.

Messrs. Paul P. Meehan and R. Jordan Smyth, Jr., are co-portfolio managers of the Fund with Mr. Thomas Meehan and have served in those capacities since its inception. Mr. Paul Meehan, Managing Director of the Adviser, joined the Adviser in August 2002 and is a member of the Adviser's Investment Selection Committee. Prior to joining the Adviser, Mr. Paul Meehan was an attorney with the federal government from May 1997 through August 2002. Mr. Smyth, Managing Director of the Adviser, joined the Adviser in April 2003 and is a member of the Adviser's Investment Selection Committee. Prior to joining the Adviser, Mr. Smyth was an investment banker with Wachovia Securities from June 1996 through February 2003.

Messrs. Thomas Meehan, Paul Meehan and Smyth also served as co-portfolio managers to the Predecessor Fund. Mr. Thomas Meehan served as portfolio manager to the Predecessor Fund since its inception and Messrs. Paul Meehan and Smyth served as portfolio managers since January 1, 2005.

The SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers and their ownership of shares of the Fund.

The Administrator and Transfer Agent

Ultimus Fund Solutions, LLC ("Ultimus" or the "Transfer Agent"), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, serves as the Fund's administrator, transfer agent and fund accounting agent. Management and administrative services of Ultimus include (i) providing office space, equipment and officers and clerical personnel to the Fund, (ii) obtaining valuations, calculating NAVs and performing other accounting, tax and financial services, (iii) recordkeeping, (iv) regulatory reporting services, (v) processing shareholder account transactions and disbursing dividends and other distributions, and (vi) administering custodial and other third party service provider contracts on behalf of the Fund.

The Distributor

Ultimus Fund Distributors, LLC (the "Distributor"), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, is the Fund's principal underwriter and serves as the exclusive agent for the distribution of the Fund's shares. The Distributor may sell the Fund's shares to or through qualified securities dealers or other approved entities.

The SAI has more detailed information about the Adviser and other service providers to the Fund.

HOW THE FUND VALUES ITS SHARES

The NAV of the Fund is normally calculated as of the scheduled close of regular trading on the NYSE (generally 4:00 p.m., Eastern Time) on each day that the NYSE is scheduled to be open for business. Currently, the NYSE scheduled to be closed on weekends and in recognition of the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. To

calculate NAV, the Fund's assets are valued and totaled, liabilities are subtracted, and the balance is divided by the number of shares outstanding. The Fund generally values its portfolio securities at their current market values determined on the basis of available market quotations. However, if market quotations are not available or are considered unreliable due to market or other events, portfolio securities will be valued at their fair values, as of the close of regular trading on the NYSE, as determined in good faith under procedures adopted by the Board. When fair value pricing is employed, the prices of securities used by the Fund to calculate its NAV are based on the consideration by the Fund of a number of subjective factors and therefore may differ from quoted or published prices for the same securities. To the extent the assets of the Fund are invested in other registered investment companies that are not listed on an exchange, the Fund's NAV is calculated based upon the NAVs reported by such registered investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing. To the extent the Fund has portfolio securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

Your order to purchase or redeem shares is priced at the NAV next calculated after your order is received in proper form by the Fund. An order is considered to be in "proper form" if it includes all necessary information and documentation related to a purchase or redemption, and payment in full of the purchase amount.

HOW TO BUY SHARES

Shares are available for purchase from the Fund every day the NYSE is scheduled to be open for business, at the NAV next calculated after receipt of a purchase order in proper form. The Fund reserves the right to reject any purchase request. Investors who purchase shares through a broker-dealer or other financial intermediary may be charged a fee by such broker-dealer or intermediary. The Fund mails you confirmations of all purchases or redemptions of Fund shares if shares are purchased directly through the Fund. Certificates representing shares are not issued.

Minimum Initial Investment

The minimum initial investment amount for all regular accounts is \$5,000 and for all IRA accounts is \$2,000. These minimum investment requirements may be waived or reduced for any reason at the discretion of the Fund.

Opening an Account

An account may be opened by mail or bank wire if it is submitted in proper form, as follows:

By Mail. To open a new account by mail:

- Complete and sign the account application.
- Enclose a check payable to the Meehan Focus Fund.
- Mail the application and the check to the Transfer Agent at the following address:

Meehan Focus Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, Ohio 45246-0707

Shares will be issued at the NAV next computed after receipt of your application and check. All purchases must be made in U.S. dollars and checks must be drawn on U.S. financial institutions. The Fund does not accept cash, drafts, “starter” checks, travelers checks, credit card checks, post-dated checks, cashier’s checks under \$10,000, or money orders. In addition, the Fund does not accept checks made payable to third parties. When shares are purchased by check, the proceeds from the redemption of those shares will not be paid until the purchase check has been converted to federal funds, which could take up to 15 calendar days from the date of purchase. If an order to purchase shares is canceled because your check does not clear, you will be responsible for any resulting losses or other fees incurred by the Fund or the Transfer Agent in the transaction.

By sending your check to the Transfer Agent, please be aware that you are authorizing the Transfer Agent to make a one-time electronic debit from your account at the financial institution indicated on your check. Your bank account will be debited as early as the same day the Transfer Agent receives your payment in the amount of your check; no additional amount will be added to the total. The transaction will appear on your bank statement. Your original check will be destroyed once processed, and you will not receive your canceled check back. If the Transfer Agent cannot post the transaction electronically, you authorize the Transfer Agent to present an image copy of your check for payment.

By Wire. To open a new account by wire of federal funds, call the Transfer Agent at 1-866-884-5968 to obtain the necessary information to instruct your financial institution to wire your investment. A representative will assist you in obtaining an account application, which must be completed, signed and faxed (or mailed) to the Transfer Agent before payment by wire will be accepted.

The Fund requires advance notification of all wire purchases in order to ensure that the wire is received in proper form and that your account is subsequently credited in a timely fashion. Failure to notify the Transfer Agent prior to the transmittal of the bank wire may result in a delay in purchasing shares of the Fund. An order, following proper advance notification to the Transfer Agent, is considered received when the Fund’s custodian, receives payment by wire. If your account application was faxed to the Transfer Agent, you must also mail the completed account application to the Transfer Agent on the same day the wire payment is made. See “Opening an Account – By Mail” above. Your financial institution may charge a fee for wiring funds. Shares will be issued at the NAV next computed after receipt of your wire in proper form.

Through Your Broker or Financial Institution. Shares of the Fund may be purchased through certain brokerage firms and financial institutions that are authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive purchase orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker’s authorized designee, receives the

order in proper form. These organizations may charge you transaction fees on purchases of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who purchase shares directly through the Fund. These organizations may be the shareholders of record of your shares. The Fund is not responsible for ensuring that the organizations carry out their obligations to their customers. Shareholders investing in this manner should look to the organization through which they invest for specific instructions on how to purchase and redeem shares.

Subsequent Investments

Once an account is open, additional purchases of Fund shares may be made at any time with a minimum of \$100 for all accounts. Additional purchases must be submitted in proper form as described below. Additional purchases may be made:

- By sending a check, made payable to the Meehan Focus Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Be sure to note your account number on the memo line of your check. The shareholder will be responsible for any fees incurred or losses suffered by the Fund as a result of any check returned for insufficient funds.
- By wire to the Fund account as described under “Opening an Account – By Wire.” Shareholders are required to call the Transfer Agent at 1-866-884-5968 before wiring funds.
- Through your brokerage firm or other financial institution.

Automatic Investment Plan and Direct Deposit Plans

You may make automatic monthly investments in the Fund from your bank, savings and loan or other depository institution. The minimum investments under the automatic investment plan must be at least \$100 under the plan and are made on the 15th and/or last business day of the month. The Transfer Agent currently pays the costs of this service, but reserves the right, upon 30 days written notice, to make reasonable charges. Your depository institution may impose its own charge for making transfers from your account.

Your employer may offer a direct deposit plan which will allow you to have all or a portion of your paycheck transferred automatically to purchase shares of the Fund. Social Security recipients may have all or a portion of their social security check transferred automatically to purchase shares of the Fund. Please call 1-866-884-5968 for more information about the automatic investment plan and direct deposit plans.

Purchases in Kind

The Fund may accept securities in lieu of cash in payment for the purchase of shares of the Fund. The acceptance of such securities is at the sole discretion of the Adviser based upon the suitability of the securities as an investment for the Fund, the marketability of such securities, and other factors which the Fund may deem appropriate. If accepted, the securities will be valued using the same criteria and methods utilized for valuing securities to compute the Fund’s NAV.

Customer Identification and Verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person that opens a new account, and to determine whether such person's name appears on government lists of known or suspected terrorists and terrorist organizations. As a result, the Fund must obtain the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, other taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport, or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities. *Federal law prohibits the Fund and other financial institutions from opening a new account unless they receive the minimum identifying information listed above.*

After an account is opened, the Fund may restrict your ability to purchase additional shares until your identity is verified. The Fund also may close your account or take other appropriate action if they are unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed. In that case, your redemption proceeds may be worth more or less than your original investment. The Fund will not be responsible for any loss incurred due to the Fund's inability to verify your identity.

Frequent Trading Policies

Frequent purchases and redemptions of Fund shares by a shareholder may harm other Fund shareholders by interfering with the efficient management of the Fund's portfolio, increasing brokerage and administrative costs, and potentially diluting the value of the Fund's shares. The Fund does not accommodate frequent purchases or redemptions of Fund shares that result in disruptive trading.

The Board has adopted policies and procedures in an effort to detect and prevent such activity. The Fund, through its service providers, monitors shareholder trading activity to ensure it complies with the Fund's policies. The Fund prepares reports illustrating purchase and redemption activity to detect disruptive trading activity. When monitoring shareholder purchases and redemptions, the Fund does not apply a quantitative definition to frequent trading. Instead the Fund uses a subjective approach that permits it to reject any purchase orders that it believes may be indicative of disruptive trading. The right to reject a purchase order applies to any purchase order, including a purchase order placed by financial intermediaries. The Fund may also modify any terms or conditions of purchase of Fund shares or withdraw all or any part of the offering made by this Prospectus. The

Fund's policies and procedures to prevent disruptive trading are applied uniformly to all shareholders. These actions, in the Board's opinion, should help reduce the risk of abusive trading in the Fund.

When financial intermediaries establish omnibus accounts in the Fund for their clients, the Fund reviews trading activity at the omnibus account level and looks for activity that may indicate potential disruptive trading. If the Fund detects potentially disruptive trading activity, the Fund will seek the assistance of the intermediary to investigate that trading activity and take appropriate action, including prohibiting additional purchases of Fund shares by the intermediary and/or its client. Each intermediary that offers the Fund's shares through an omnibus account has entered into an information sharing agreement with the Fund designed to assist the Fund in stopping future disruptive trading. Intermediaries may apply frequent trading policies that differ from those described in this Prospectus. If you invest in the Fund through an intermediary, please read that firm's program materials carefully to learn of any rules or fees that may apply.

Although the Fund has taken steps to discourage frequent purchases and redemptions of Fund shares, it cannot guarantee that such trading will not occur.

HOW TO REDEEM SHARES

Shares of the Fund may be redeemed on any day on which the Fund computes its NAV. Shares are redeemed at their NAV next determined after the Transfer Agent receives your redemption request in proper form as described below. Redemption requests may be made by mail or by telephone.

By Mail. You may redeem shares by mailing a written request to Meehan Focus Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Written requests must state the shareholder's name, the account number and the shares or dollar amount to be redeemed and be signed exactly as the shares are registered with the Fund.

Signature Guarantees. If the shares to be redeemed have a value of greater than \$50,000, or if the payment of the proceeds of a redemption of any amount is to be sent to a person other than the shareholder of record or to an address other than that on record with the Fund, you must have all signatures on written redemption requests guaranteed. If the name(s) or the address on your account has changed within the previous 15 days of your redemption request, the request must be made in writing with your signature guaranteed, regardless of the value of the shares being redeemed. The Transfer Agent will accept signatures guaranteed by a domestic bank or trust company, broker, dealer, clearing agency, savings association or other financial institution that participates in the Securities Transfer Agents Medallion Program ("STAMP") sponsored by the Securities Transfer Association. Signature guarantees from financial institutions that do not participate in STAMP will not be accepted. A notary public cannot provide a signature guarantee. The Transfer Agent has adopted standards for accepting signature guarantees from the above institutions. The Fund and the Transfer Agent reserve the right to amend these standards at any time without notice.

Redemption requests by corporate and fiduciary shareholders must be accompanied by appropriate documentation establishing the authority of the person seeking to act on behalf of the account. Forms of resolutions and other documentation to assist in compliance with the Transfer Agent's procedures may be obtained by calling the Transfer Agent.

By Telephone. Unless you specifically decline the telephone redemption privilege on your account application, you may also redeem shares having a value of \$50,000 or less by telephone by calling the Transfer Agent at 1-866-884-5968.

Telephone redemptions may be requested only if the proceeds are to be sent to the shareholder of record and mailed to the address on record with the Fund. Account designations may be changed by sending the Transfer Agent a written request with all signatures guaranteed as described above. Upon request, redemption proceeds of \$100 or more may be transferred electronically from an account you maintain with a financial institution by an Automated Clearing House ("ACH") transaction, and proceeds of \$1,000 or more may be transferred by wire, in either case to the account stated on the account application. Shareholders may be charged a fee of \$15 by the Fund's custodian for outgoing wires.

The Transfer Agent requires personal identification before accepting any redemption request by telephone, and telephone redemption instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. "Reasonable procedures" include but are not limited to the Transfer Agent confirming that the account is eligible for telephone transactions, requesting some form of personal identification (e.g., social security number, date of birth, etc.) from you prior to acting on telephonic instructions, and getting a verbal confirmation from you on a recorded line at the time of the trade. In the event of drastic economic or market changes, a shareholder may experience difficulty in redeeming shares by telephone. If such a case should occur, redemption by mail should be considered.

Through Your Broker or Financial Institution. You may also redeem your shares through a brokerage firm or financial institution that has been authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive redemption orders on the Fund's behalf. The Fund normally calculates its NAV as of the scheduled close of regular trading on the NYSE (generally 4:00 p.m. Eastern time). Your brokerage firm or financial institution may require a redemption request to be received, in proper form, at an earlier time during the day in order for your redemption to be effective as of the day the order is received. Such an organization may charge you transaction fees on redemptions of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who redeem shares directly through the Transfer Agent.

Receiving Payment

The Fund normally makes payment for all shares redeemed within 7 days after receipt by the Transfer Agent of a redemption request in proper form. Under unusual circumstances as permitted by the Securities and Exchange Commission, the Fund may suspend the right of redemption or delay payment of redemption proceeds for more than 7 days. A requested wire of redemption

proceeds normally will be sent on the business day following the redemption request. However, when shares are purchased by check or through ACH, the proceeds from the redemption of those shares will not be paid until the purchase check or ACH transfer has been converted to federal funds, which could take up to 15 calendar days.

Redemption Fee

A redemption fee of 2% of the dollar value of the shares redeemed, payable to the Fund, is imposed on any redemption of Fund shares occurring within seven calendar days of the date of purchase. Redemption fees may be waived for the reasons listed below or in the sole discretion of the Adviser after considering the circumstances related to the redemption and the Adviser's management of the Fund's portfolio. No redemption fee will be imposed on the involuntary redemption of accounts below the minimum investment amount, the redemption of shares representing reinvested dividends or capital gains distributions, or on amounts representing capital appreciation of shares. In determining whether a redemption fee is applicable to a particular redemption, it is assumed that the redemption is first of shares acquired pursuant to the reinvestment of dividends and capital gains distributions, and next of other shares held by the shareholder for the longest period of time.

The redemption fee is waived on required distributions from IRA accounts due to the shareholder reaching age 70½, and for any partial or complete redemption following death or "permanent and total disability" (as defined in Section 22(e)(3) of the Internal Revenue Code of 1986, as amended) of a shareholder named on the account. This exemption is available only for shares held at the time of death or initial determination of disability and if the Fund is notified of the requested exemption at the time of the redemption request. The Fund may also require further documentation in connection with these waivers.

The redemption fee is also waived for shareholders systematically redeeming Fund shares under the automatic withdrawal plan (see "Automatic Withdrawal Plan" below).

Minimum Account Balance

Due to the high cost of maintaining shareholder accounts, the Fund may involuntarily redeem shares in an account, and pay the proceeds to the shareholder, if the shareholder's activity causes the account balance to fall below the minimum initial investment amount. Such automatic redemptions may cause a taxable event for the shareholder. An automatic redemption does not apply, however, if the balance falls below the minimum initial investment amount solely because of a decline in the Fund's NAV. Before shares are redeemed to close an account, the shareholder is notified in writing and allowed 30 days to purchase additional shares to meet the minimum account balance requirement.

Automatic Withdrawal Plan

If the shares in your account have a value of at least \$5,000, you (or another person you have designated) may receive monthly or quarterly payments in a specified amount of not less than \$100 each. There is currently no charge for this service, but the Transfer Agent reserves the right, upon

30 days written notice, to make reasonable charges. Telephone the Transfer Agent toll-free at 1-866-884-5968 for additional information.

Redemptions in Kind

The Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a “redemption in kind”. This would be done only under extraordinary circumstances and if the Fund deems it advisable for the benefit of all shareholders, such as a very large redemption that could affect Fund operations (for example, more than 1% of the Fund’s net assets). A redemption in kind will consist of securities equal in market value to the Fund shares being redeemed. If the Fund redeems your shares in kind, you will bear the market risks associated with the securities paid as redemption proceeds. In addition, when you sell these securities, you will pay brokerage charges associated with selling the securities.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Income dividends and net capital gain distributions, if any, are normally declared and paid annually by the Fund in December. Your distributions of dividends and capital gains will be automatically reinvested in additional shares of the Fund unless you elect to receive them in cash. The Fund’s distributions of income and capital gains, whether received in cash or reinvested in additional shares, will be subject to federal income tax.

The Fund intends to qualify as a regulated investment company for federal income tax purposes, and as such, will not be subject to federal income tax on its taxable income and gains that it distributes to its shareholders. The Fund intends to distribute its income and gains in such a way that it will not be subject to a federal excise tax on certain undistributed amounts.

Distributions attributable to ordinary income and short-term capital gains are generally taxed as ordinary income, although certain income dividends may be taxed to non-corporate shareholders at long-term capital gains rates. In the case of corporations that hold shares of the Fund, certain income from the Fund may qualify for a 70% dividends-received deduction. Distributions of long-term capital gains are generally taxed as long-term capital gains, regardless of how long you have held your Fund shares.

When you redeem Fund shares, you generally realize a capital gain or loss as long as you hold the shares as capital assets. Except for investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts, and tax-exempt investors that do not borrow to purchase Fund shares, any gain realized on a redemption of Fund shares will be subject to federal income tax.

You will be notified by February 15th of each year about the federal tax status of distributions made by the Fund during the prior year. Depending on your residence for tax purposes, distributions also may be subject to state and local taxes.

Federal law requires the Fund to withhold taxes on distributions paid to shareholders who fail to provide a social security number or other taxpayer identification number or fail to certify that such number is correct. Foreign shareholders may be subject to special withholding requirements.

Because everyone's tax situation is not the same, you should consult your tax professional about federal, state and local tax consequences of an investment in the Fund.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Predecessor Fund's financial performance for the past 5 fiscal years. Certain information reflects financial results for a single Predecessor Fund share. The total returns in the table represent the rate that an investor would have earned on an investment in the Predecessor Fund (assuming reinvestment of all dividends and other distributions). This information has been audited by the Predecessor Fund's independent registered public accounting firm, Cohen & Company, Ltd., whose report, along with the Predecessor Fund's financial statements, is included in the Annual Report to shareholders, which may be obtained at no charge by calling the Fund at 1-866-884-5968.

	Year Ended October 31,
